

**Staffing agencies are a great job search partner.** They can help you find permanent, temporary or seasonal, employment; it could be part-time or full-time employment. Many specialize in a specific industry or field (e.g. accounting or medical staffing), while others represent a variety of positions (e.g. clerical, light industrial, construction). Treat an appointment with a staffing agency just like an interview - be on time, dress appropriately and be prepared to discuss your employment history.
